Hi there!
I’m Maria

Hi there! I'm a fresh UI design graduate from Noroff. I'm all about creating clean, accessible, and user-friendly designs. I love playing with color and images to make experiences that are joyful and motivating. I hope you feel happy, peaceful, and inspired when you visit my portfolio. I love finding creative solutions that make technology both beautiful and easy to use.

Before embarking on this exciting career change, I spent 10 wonderful years as a kindergarten teacher, which taught me the importance of patience, empathy, and clear communication – skills that are incredibly valuable in UI design. When i’m not designing , I spend time with my two daughters and fiancé. Enjoying walks in the nature, jogging, kayaking or reading a book.
